CS 3341 FOUNDATIONS OF COMPUTING: LAB 0

**Overview**: In this lab you will use verify your lab download and submission pipeline.

Code Link:

Due: September 12, 2023 @ 11:59pm.

**Code Requirements:**

- You should create a main.cpp file in the ./Code folder that outputs "hello world" to the terminal and then exits.
- You may modify the make file as needed to insure you code passes the Git Action, if it does not compile it receives a 0.

**All code should be in the "Code" folder.**
